

Features

- IP68 Protection
- Water temperature monitoring
- Double beam for high accuracy Q1/Q3=R250
- No moving parts, no damage.
- Displays rate, total, reverse flow, Battery status etc
- Pulse outputs and RS485 communication (optional)

Overview

The Trantech TT8 Ultrasonic bulk water meter utilises double beam advanced transit time measurement technology to provide accurate and precise flow measurement. It has remarkably low power consumption providing many years of hassle free operation and wide measuring ranges to record even the lowest of flows. The durable all steel enclosure has IP68 protection providing quality operation in even the harshest of environments. Widely used in urban water supply networks, water resource management, irrigation, landscape management and industrial automation applications.

Display Functions

P1: Regular display P2: Historical data - 24 months

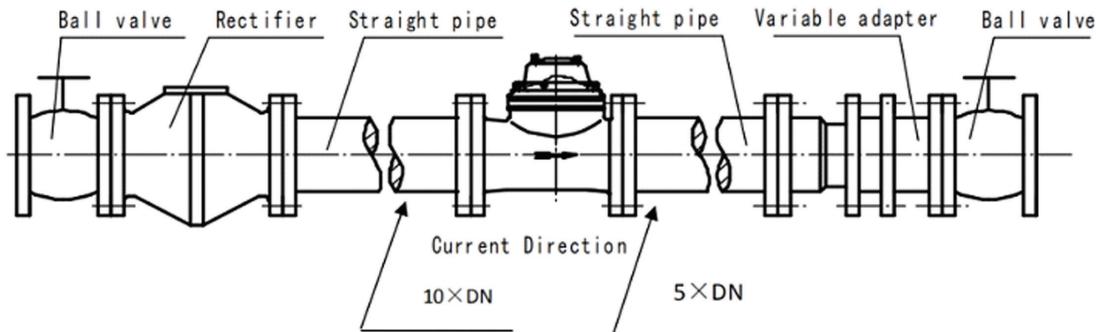

Technical Parameters

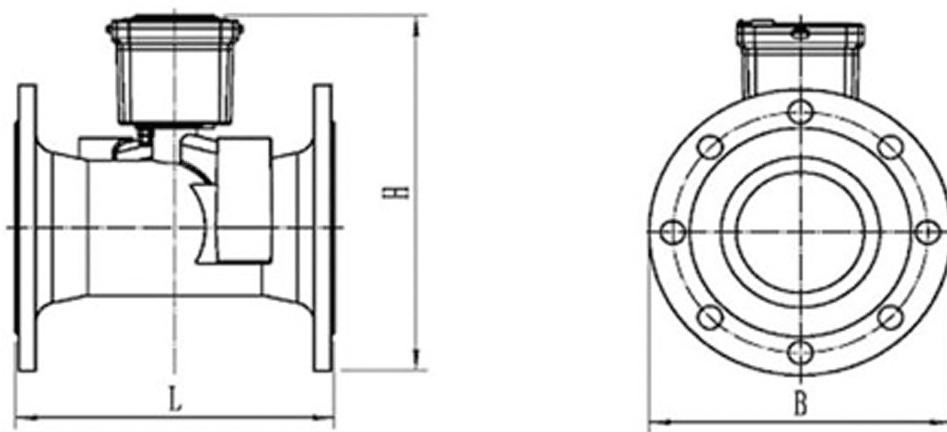

Nominal diameter (mm)	50	65	80	100	125	150	200	250	300
Max flow Q4 (m³/h)	31.25	50	78.75	125	200	312.5	500	787.5	1250
Nominal flow Q3 (m³/h)	25	40	63	100	160	250	400	630	1000
Transitional flow Q2 (m³/h)	0.16	0.256	0.4	0.64	1.024	1.6	2.56	4.03	6.4
Min flow Q1 (m³/h)	0.1	0.16	0.252	0.4	0.64	1	1.6	2.52	4
Protection class	IP68								
Measuring range	Q3/Q1= R250 (R400 optional)								
Accuracy class	Class 2								
Battery life	>8years								
Temperature class	T50								
Pressure loss class	ΔP63								
Flow profile sensitivity class	U10/D5								
Electromagnetic environment class	E1								
Working pressure	1.6Mpa								
Max flow indication (m³)	9999999.9								
Reverse flow indication (m³)	9999999.9								
Output Signal	RS485, Pulse output, GPRS								
Installation position	Horizontal or Vertical								

Typical Installation
